

lg9.1: 2.76 Mb

lg9.2: 16.715 Mb

3.717 Mb

0.398 Kb

contig-0007013: 23.018 Mb

The diagram illustrates a genomic map with two overlapping contigs, lg9.1 and lg9.2. lg9.1 has a length of 2.76 Mb and ends at 3.717 Mb. lg9.2 starts at 0.398 Kb after the end of lg9.1 and has a length of 16.715 Mb. The total length of the combined region is 23.018 Mb, labeled as contig-0007013. The gap between the two contigs is 0.398 Kb. The diagram uses a light gray shaded area to represent the genomic region, with black lines indicating the boundaries of the contigs. The labels are in black text.
