

gap left 1e+05 Kb

gap right 1e+05 Kb

bctg00000233 165 Kb

The diagram illustrates a genomic region with a gap and a contig. At the top, a thick black horizontal line represents the gap, with the label 'gap left 1e+05 Kb' on the left and 'gap right 1e+05 Kb' on the right. Below this, a large, light gray, hourglass-shaped region represents the contig. This region is composed of several overlapping triangles that converge towards a central point, creating a complex, multi-layered appearance. At the bottom, another thick black horizontal line represents the contig, with the label 'bctg00000233 165 Kb' centered below it. The overall structure suggests a genomic map or assembly visualization.
